

**Indians, Asians face same issues**

**Toronto Star-Letter to the Editor.** Toronto, Ont.: Feb 7, 2005. pg. A.15

Do we need black schools?

Feb. 5.

In the GTA, blacks are not the only visible minorities South and east Asians are more numerous. It has been stated that blacks lack role models within the educational system; shortages of black teachers and lack of focus on African history are mentioned as possible reasons for problems encountered. Indian and Asian students face the same issues; there is a shortage of all visible minorities in teaching positions and the history which is taught is excessively Euro-focused.

It may surprise members of the black community to learn that they are not the only ethnic group in Canada that suffers from discrimination and racism.
